

Touch-Test™ Sensory Evaluators

Evaluate both diminishing and returning sensation.

The handle opens to a 90° angle for easy application and protects the filament when closed.

TOUCH-TEST™ SENSORY EVALUATORS (SEMME-WEINSTEIN MONOFILAMENTS)

These portable sensory evaluators are calibrated to within a 5% standard deviation of each target force.

- Use these evaluators to test sensory levels and obtain objective data for accurate reporting on the status of diminishing or returning sensibility.
- Touch-Test™ Sensory Evaluators are individually calibrated within a 5% standard deviation of a predetermined level of force. The filament bends when peak force threshold is reached.
- The unique handle easily opens to a 90° angle for testing. When closed, the Sensory Evaluator can be carried safely in a pocket or carrying case, protecting the filament when not in use.
- Finger indentations on the handle provide a firm, comfortable hold.
- The Sensory Evaluator handles are marked with the corresponding color-coded pressure level.
- Evaluation results can be recorded on the Hand or Foot Screening Forms (NC12750-1 and NC12749). Thresholds include normal sensation, diminished light touch, diminished protective sensation, loss of protective sensation and deep pressure sensation only.
- Available in a 5 Piece Hand Kit, a 6 Piece Foot Kit and a 20 Piece Full Kit. Hand and Foot Kits also are available as complete kits that include screening forms and colored pencils.
- Each kit comes in a protective case. Instructions are included.
- Individual replacement Sensory Evaluators are sold separately, including 5.07, which indicates loss of protective sensation.
- Patent pending.
- A free informational video featuring the Touch-Test™ Sensory Evaluators is available at www.ncmedical.com

Each Touch-Test™ Sensory Evaluator

5 Piece Hand Kit

- 2.83, 3.61, 4.31, 4.56 and 6.65
 - Protective case
- NC12772

Complete Hand Kit

- 2.83, 3.61, 4.31, 4.56 and 6.65
 - Hand Screening Forms
 - Colored Pencil Set
 - Protective case
- NC12771

6 Piece Foot Kit

- 2.83, 3.61, 4.31, 4.56, 5.07 and 6.65
 - Protective case
- NC12773

Complete Foot Kit

- 2.83, 3.61, 4.31, 4.56, 5.07 and 6.65
 - Foot Screening Forms
 - Colored Pencil Set
 - Protective case
- NC12774

20 Piece Full Kit

- All 20 sizes
 - Protective case
- NC12775-99

Colored Pencil Set

- One pencil each of green, blue, purple, red and black.
- NC12756

Kits come in convenient, protective cases.

FOOT SCREENING FORMS

- Use to accurately record the results of a sensory evaluation.
- Includes one color mapping sample sheet.
- Foot Screening Pad has 100 forms.

NC12749

HAND SCREENING FORMS

- Use to accurately record the results of a Touch-Test™ sensory evaluation.
- Record physical findings by coloring the areas of different sensory levels in the hand illustrations.
- Each pad has 100 sheets.
